

Application No.: 09/989965

Case No.: 56732US002

Amendments to the Specification:

Page 4, lines 15-16, please amend the paragraph as follows:

"exhalation valve" means a valve that is adapted for use on a filtering face mask that
opens to allow a fluid to exit a filtering face mask's interior gas space when the valve is
operatively disposed on the mask;
